Teaching Testimonials

- Hannah's classes were very helpful and a lot more fun than when I first covered these materials for undergrad. Everything was explained very intuitively.

- The classes were very clear and very helpful.

- I had never done statistics before and was really worried about this class. Hannah helped me understand not only all the theory but even how to analyse my own data! She was truly great.

- I found the classes really useful and informative and the surgeries incredibly helpful so thank you for all the hard work you put in, I really appreciated it!

- It has been a wonderfully enriching semester, and I feel obliged to thank you for making the learning process in the classes specifically so enjoyable!

- Hannah was a fantastic teacher! She helped me understand even the most difficult bits, and was really good at keeping everyone involved and engaged throughout.

- Thanks for all your help this term and for teaching a difficult subject so well in what I know were less than ideal teaching circumstances [Sidenote: Referring to remote teaching during Covid lockdown.]. Having never used Stata or anything like it before, I did not think I would be able to learn it in such a short amount of time, but you really made it come to life!

- The classes were very engaging and added a lot of intuition to the lectures. I really liked the examples at the start of each class.

- Thank you very much for the great class this term! I learned so much and am actually excited to find a dataset and write the holiday assignment now.
